

# SAVANNAH INDUSTRIAL MARKET REPORT

Strong leasing & absorption persists despite rising vacancies.

# WHAT'S HAPPENING

Savannah continues to ride the supply wave as nearly 3 million square feet of new inventory hit the market this quarter, further elevating vacancies. However, demand remains strong with robust leasing activity. The Port of Savannah has seen an increase in container trade every month in 2024 compared to

2023. GPA's performance in May improved by 11% over April's numbers. With consumer spending still active and anticipated elevated port activity for the remainder of the year, Savannah's industrial market is experiencing positive and sustained momentum amid rising vacancy.
