MIRAMAR

INDUSTRIAL SUBMARKET

Miramar/Mira Mesa is one of San Diego's biggest industrial submarkets, buttressed by one of the largest concentrations of manufacturing inventory in the region. The diverse set of tenants in Miramar have been attracted to the central location with arterial freeway access amid a huge concentration of households.

The flex inventory has begun being targeted by investors to reposition into lab space to attract spillover demand from tenants in the Sorrento Mesa area, particularly along Interstate 805 where the two submarkets share a border. That trend took hold in Sorrento Mesa several years ago and has expanded here as opportunities increasingly dwindle in the neighboring submarket.

Few submarkets in San Diego are positioned as ideally within the region as Miramar. Interstates 5, 15, and 805 provide transportation corridors to the border, Inland Empire, and Los Angeles. It is also one of the most densely populated areas of San Diego, which provides a deep well of potential workers for local employers in the submarket.

Buildings have traded with regularity in the submarket, and given the breadth of inventory, both local and national investors have shown interest here when opportunities arise, which has made it one of the most liquid investment markets in San Diego.

Technology and biotech firms have shown an increased willingness to branch out here to take advantage of lower rents, a central location, and proximity to San Diego's primary life science and tech nodes in Sorrento Mesa, UTC, and Torrey Pines. That trend may accelerate in the coming years, particularly among firms priced out of neighboring Sorrento Mesa where so much of the older inventory is being redeveloped into high-end lab space as their leases expire.
